Provost Point:

Sometimes you need to say no to donors.

President Counterpoint:

Without donors we don't have a college.

Provost Point:

Don't come back from every conference with new initiatives that we have to take on.

President Counterpoint:

Sustainability may necessitate unwanted change.

Provost Point:

Recognize process is as important as the final decision.

President Counterpoint:

I, the Board, and sustainability do not have the luxury of process.

Provost Point:

Stay in your lane and trust campus leaders.

President Counterpoint:

I need to be informed and never want to be surprised.

Provost Point:

It's not about you, it's about the college.

President Counterpoint:

The buck stops here.

*Heavy is the head that wears the crown.*

Provost Point:

Academics is why the College exists.

President Counterpoint:

Remind me in advance of where I need to be for  
balance and support.

Provost Point:

Vision needs to be clear, attainable, motivating,  
and aligned with Mission. *What does success look like?*

President Counterpoint:

Provide me with success stories of mission  
fulfillment.

Provost Point:

Faculty work hard and do deserve well-earned down time.

President Counterpoint:

Down time is ideal for setting strategy and launching initiatives.

Provost Point:

Very smart people are watching you always.
